Women's Mental Health Initiative

Lakewood Counseling Service is committed to the treatment of women suffering from a wide range of emotional problems across the female life span.

Our mission is to improve the health and well-being of women and their families, and to promote science-based standards of excellence in women's mental health.

Women's Unique Mental Health Needs:

- Women have special roles in family and community. At times, these responsibilities can seem overwhelming.
- Hormonal changes that occur throughout life can add to difficulty coping with day-to-day issues.
- Hormones can also contribute to anxiety and affect women's moods.

If you or someone you care about is having trouble coping with these or similar kinds of problems, please call for help.

(816)404-6170

Services provided:

Lakewood Counseling Service offers services to evaluate and treat anxiety, sadness, grief and other mental health concerns common to women such as:

- Pregnancy and childbirth
- Breastfeeding and infant care
- Menstrual cycle
- Loss of pregnancy
- Infertility
- Menopause
- Treatment of a life-threatening illness
- Intimacy and sexuality issues
- Major illness, accident or surgery
- Death of a loved one
- Job loss
- Sexual, physical, verbal abuse or neglect
- Depression or anxiety related to any of the above issues.
