Lakewood Counseling Service

The mission of Lakewood Counseling Service is to utilize an integrative approach to provide behavioral health services to individuals and families and to be an effective resource to the community for education and recovery.

Lakewood Counseling Service is a satellite facility of Truman Medical Center Lakewood and a program of TMC's Behavioral Health. TMC's Behavioral Health is a leader in providing mental health services throughout the Greater Kansas City Metropolitan area.

Lakewood Counseling Service opened in 2006 to provide needed mental health and substance abuse services to the citizens of Eastern Jackson County.

Our skilled, compassionate staff provides evidence-based treatment to improve the quality of life of people with mental health, substance abuse, and compulsive gambling problems.

We understand that mental illness is a disease like many others. It disrupts a person's ability to think clearly, to sort out feelings, and to be able to relate to others effectively.

Effective counseling and psychiatric care help re-establish emotional balance and improve quality of life and resiliency. That is why we are here.

Clients Served

Lakewood Counseling Service (LCS) serves:

- Older adults
- Adults
- Adolescents
- Families
- Children

Treatment

At Lakewood Counseling Service each patient's treatment is designed to meet their individual needs, problems, and life situation.

Treatment is based on the individual needs of the person or family seeking treatment. Our physicians, nurses, psychologists, clinical social workers, counselors, and other clinical staff work with each person to provide an overall, coordinated plan for mental health treatment.
