Truman Medical Center Hospital Hill. *Caring for all of Kansas City*

Truman Medical Center (TMC) Hospital Hill, Kansas City's only real downtown hospital, is strongly committed to meeting the healthcare needs of the underserved, while also offering a wide range of specialized medical services to all segments of the community. The hospital is part of Truman Medical Centers, a two-hospital, combined 380-bed, not-for-profit healthcare system, the largest and most comprehensive safety net healthcare provider in Jackson County and Kansas City, Mo. Recognized as a critical area resource for advanced specialized healthcare, TMC is constantly working to deliver the best possible medical care for our patients. Quality, innovation, teamwork and attention to detail are at the heart of all we do.

TMC's tagline is: "Better. For Everyone." It is a simple statement, but it has profound significance. It is what we stand for, it is the focus of our work, and it is our promise to our patients.

We Are Here For You

Located in the heart of downtown Kansas City, TMC Hospital Hill is just steps away from Crown Center and the River Market area. With the burgeoning redevelopment of downtown — the Sprint Arena, the H & R Block Building, Power & Light District and the numerous new living spaces — TMC Hospital Hill is perfectly located to serve the healthcare needs of urban Kansas City.

"It's hard to imagine

Kansas City *without*

Truman Medical

Centers."

It's All About Feeling Better

Recently named one of the nation's top academic medical centers, TMC Hospital Hill:

- Features a Level One Trauma Center (the highest designation), one of just a few in the metropolitan area. With 52 emergency beds, TMC Hospital Hill is one of the largest and busiest emergency departments for adults in Kansas City
- Serves nearly 100,000 individual patients each year
- Includes a neonatal intensive care unit
- Participates in national diabetes initiatives

John W. Bluford, TMC president
and CEO, 2011 chair of the
American Hospital Association ■

- Is home to TMC's Center for the Healing Arts, an innovative arts and humanities program that uses the creative expression of arts and literature to encourage a broader understanding of people in health and illness
- Provides the site of the Asthma Research Center in conjunction with the American Lung Association
- Features the only treatment center in the region for adults with sickle cell anemia
- Is noted for its treatment of asthma, diabetes, eye disease, weight management, high-risk pregnancy and other women's health conditions
- Have 22 on-site language interpreters in Spanish, Somali and Arabic and provide translation services for approximately 150 languages through Cyracom
- Helps educate more than 1,000 students each year by serving as the primary teaching hospital for the University of Missouri-Kansas City Schools of Medicine, Nursing, Dentistry and Pharmacy
- Contains a state-of-the-art Cardiology Center, featuring a complete range of cardiac services for prevention, early diagnosis, interventional treatment and recovery in a beautiful, patient-centered environment
- Features a new diabetes center, designed to help patients manage their disease on a planned, rather than episodic basis
- Provides specialty services in:

Bariatrics/weight management	Infectious disease	Podiatry
Cardiology	Immunology/Rheumatology	Pulmonology
Dermatology/skin care	Nephrology	Psychiatry
Endocrinology	Neurology	Sickle Cell
